

COMMUNIQUE

On 2 April 2020, Brigadier General, Director General of EIFORCES conducted a working visit to the EIFORCES Awaé campus.

During this visit, he met with the SCUS 1 and DEMFS 9 trainees, as well as he held sectoral meetings which made it possible to note the good implementation of the measures taken within our institution so far, particularly in the Awaé campus on the one hand, and, on the other hand, to give a number of general and specific directives.

Basically, following the fifteen (15) day extension of the government measures of 17 March 2020 relating to the national response plan to the novel coronavirus pandemic, internal measures put in place on 19 March 2020 were renewed, including:

- The use of distance learning for DEMFS 9 and BESS 6;
- The partition of SCUS1 into training groups of less than ten (10) trainees;
- The restriction of visits to work and accommodation places, as well as the presence in offices of non-essential personnel, etc.

Furthermore, and, as a reminder, the Brigadier General, Director General invites each and every one to abide by the health and safety instructions in force at the Headquarters in Ngoussou, at the hotel where the 6th BESS trainees are residing and at the Awaé campus.

Additional instructions were given to reinforce these barrier measures such as the wearing of masks and the multiplication of hand washing points.

Finally, it was decided that officials, trainees and support staff must ensure the continuity of activities by favouring, as much as possible, teleworking.

The visit ended with the inspection of the ongoing building sites in Awaé, including sports grounds, fuel bunker and administrative building. /-
